

Lincoln Castle Academy

2nd April 2020

Dear Students & Parents,

As the term draws to a close and the Easter holidays begin, we believe it is important to rest, reflect and focus on the most important thing of all - family. Teachers **will not** be setting any work for students to complete during the Easter holidays. If students wish to complete school work, they can continue with the work set in the last 2 weeks on 'Show My Homework'. The next time teachers will set work will be Monday 20th April when our 'virtual school' begins again.

The Easter break provides an opportunity to follow my previous advice, taking care of 'mind, body and soul.' Students might like to attempt something new such as learning an instrument, cooking, gardening or arts and crafts. We also recommend students spend time exercising and reading; both can be beneficial to mental health. Students are welcome to share their varied achievements over the break with staff via email: HOY@lincolncastleacademy.co.uk

Lincoln Castle Academy staff will be providing support and supervision for the children of critical and key workers during the Easter break. These parents have received an email with further details. Our daily safeguarding systems and checks remain in place for all students throughout the Easter break.

Should you need to get in touch, please remember our school email is checked on a daily basis: enquiries@lincolncastleacademy.co.uk

Thank you for all your support during this testing time.

Take care and please stay safe,

Mrs Laming
